If you are travelling from Manchester City Centre you can walk or cycle along the Ashton Canal since it is quiet and picturesque during the day. It takes about 15-20 minutes to walk from Piccadilly Train Station. At the bottom of the ramp on Piccadilly Approach turn right and walk up Ducie Street. After the bridge on your right, turn right and drop onto the Ashton Canal at Paradise Wharf. Follow the canal tow path round to the left; continue past Piccadilly Village and under Great Ancoats Street. Walk along the canal until you reach Bridge No 5; go up the steps onto Beswick Street. Turn right and Bridge 5 Mill is the grey building just over the bridge on your right with black railings and a garden.

At night the easiest and safest route is along Old Mill Street. At the bottom of the ramp on Piccadilly Approach turn left into London Road. At the traffic lights turn left under the bridge into Store Street and follow the road up to the next set of traffic lights where it crosses Great Ancoats Street. Go straight across into Old Mill Street and across the ‘bridge’ with the angled lights. At the next set of traffic lights turn right into Beswick Street and Bridge 5 Mill is the grey building just over the bridge on your right with black railings and a garden in front.
