An abstract should contain:

**Background:** State the primary objectives of the study, including the main research questions or aims.

**Methods:** Quantitative studies should include design, participants (including number of participants), measures and analyses; qualitative studies should include design, participants, method of data elicitation and reference to the approach for classification of data such as grounded theory or discourse analysis.

**Findings:** Quantitative studies should include a summary of the results, which should contain numerical data; qualitative studies should include a description of the main findings such as the themes or categories generated.

**Discussion:** Some discussion of the contribution the research makes to that particular division of Psychology.

We welcome posters and presentations on works in progress too! Where you don’t have results to include in the abstract, please outline how the intended to analyse your data to address the research aims or research questions. The discussion section should include a brief statement of the expected or potential implications of the research.

To submit your abstract please email it to n.ireland@bps.org.uk

The deadline for submissions is midnight on Tuesday 28th February 2017.
